

COMPUTING

The children will explore spreadsheets, learning to create formulas to serve different purposes. They will use a spreadsheet to collect and interpret a real life problem.

RE

Transformation & Serving
The children will learn about Pentecost, serving God and transformation of energy.

DT

The children will learn about textiles. They will design and create a product by joining materials, cutting accurately and understanding patterns.

PSHE

Children will learn about keeping themselves safe. They will explore the concept of trust as well as recognise peer pressure and how to deal with it. They will gain further understanding of potential dangers such as those on roads, water, fire and the internet.

GEOGRAPHY

The children will look at locational knowledge identifying world countries as well as using maps to focus on South America. They will be looking at the physical and human geography of the Amazon Rainforest.

MATHS

The children will be exploring fractions, decimals and percentages.

ENGLISH

The children will study The Explorer by Katherine Randell. They will learn to create complex sentences using relative clauses with pronouns.

SCIENCE

In Science, Year 5 will be exploring and comparing life cycles of plants and animals.

MUSIC

In music the children will learn to play tuned and untuned instruments with control and rhythmic accuracy. They will practice, rehearse and present a performance with an awareness of their audience.
